**Web Designing Competition Rules**

***Task: Copy the Given Webpage***

---

**1. Technology Restrictions**

- Participants are allowed to use **only**:

    o HTML o

    CSS o

    JavaScript

- Use of any frameworks or libraries is **strictly prohibited**, including but not limited to:

    o Bootstrap

    o Tailwind

    CSS o

    React.js o

    jQuery

- **Pre-built components, themes, or online templates are not allowed.**

- The webpage must be **fully hand-coded** using basic and structured coding practices.

---

**2. Time Limit**

- Total competition duration: **1.5 hours (90 minutes)**.

---

**3. Technical Requirements**

**Font**

- Primary font: **Segoe UI**

- Fallback font: **sans-serif**

**Images**

- All image files will be provided in the competition folder.

- The **hero section must use only the provided background image**.

**Responsiveness**

- The <meta viewport> tag is **mandatory**.

- The webpage must be responsive for:

    o Mobile screens

    o Tablet screens

**Design Effects**

- Linear gradients, shadows, hover effects, and transitions must **closely match the reference webpage**.

---

**4. Content Accuracy**

- The replicated webpage must **closely match the provided reference webpage**.

- All of the following must be identical in **structure and placement**:

    o Headings o

    Text content

    o Sections o

    Tables o

    Forms o

    Buttons

- Additional content is allowed but will be evaluated **at the judges' discretion**.

- If the webpage is incomplete at the end of the competition, it will be evaluated based on **progress completed**.

---

**5. Design Specifications**

**Color Palette (Must Match Reference)**

- Primary accent color: **#4b5cff**

- Background color: **#f4f6fb**

- Text color: **#1f2430**

- Footer background color: **#111**

- Layout spacing, alignment, card design, and section styling must remain **consistent with the reference webpage**.

---

## 6. Functionality

All interactive elements must function exactly as shown in the reference webpage, including:

- Navigation links
- Buttons
- Hover effects
- Forms

**JavaScript Rules**

- JavaScript (if used) must be:
  - Written manually

---

## 7. Cross-Browser Compatibility

The designed webpage must work correctly on:

- Google Chrome
- Mozilla Firefox
- Microsoft Edge

---

## 8. Originality and Compliance

- Copying code from:
  - The internet
  - Other participants is **strictly prohibited**.
- Any violation of originality rules will lead to **immediate disqualification**.

---

## 9. Submission Rules

- Participants must inform the **volunteer/coordinator** once the task is completed.
- **Late submissions will not be accepted** under any circumstances.

## 10. Judging Criteria

- **Design Accuracy (40%)** – Visual similarity to the reference webpage

- **Functionality (30%)** – Proper working of interactions and hover effects

- **Code Quality (20%)** – Clean, readable, and well-indented code

- **File Organization (10%)** – Proper file naming and structured folders

## 11. Ethical Conduct:

**Participants must follow fair competition practices. Any attempt at misconduct will lead to disqualification.**

**If caught copying from others or the internet the participant will be disqualified.**

## 12. Hardware and Software Setup

- Participants may use any text editor or IDE, such as:

    - VS Code

      Notepad++

- **Internet access is restricted** during the competition.

## 13. Resources Provided

- Nature.jpg (Hero background image file)

- Reference webpage (HTML file)

- Required image assets (provided in the competition folder)
